

Stools

OSS, LAB1 & SAD01 Stools

The Shuttleworth Seating Range offers durable, ergonomic, and adaptable seating solutions designed to meet the daily demands of clinical, laboratory, and treatment environments.

The Operator Stools are available in standard form, with optional foot rings for enhanced posture support, and in PU versions for easy cleaning and infection control compliance.

The Laboratory Stools are designed for high-use technical and clinical settings, with optional foot rings for added stability and ergonomic benefit. For enhanced posture and mobility, the Saddle Stools provide a natural seating position that reduces strain during procedures, with options including foot rings, backrests, and easy-clean PU finishes.

The Black PU Operator and Saddle Stools provide a cost-effective, low-maintenance solution, featuring durable polyurethane seats that are compatible with NHS-approved cleaning agents including Chlor-Clean, Haz-Tab, Milton, Tristel, Clinell wipes, and other alcohol-based disinfectants.

Each stool is fitted with a gas-assisted, 360° adjustable height lever for positioning and our 14 standard upholstery colours apply. (see page 47)

Code	Base Diameter	Seat Height Adj	Weight	SWL
OSS1-COLOUR	42cm	45-59cm	7kg	150kg
LAB1-COLOUR	42cm	45-59cm	7kg	150kg

Chairs

OCS1, LAB1, CASS & ROLLO0 Chairs

Shuttleworth's seating range offers durable, hygienic, and space-efficient solutions for waiting areas, consultation rooms, and clinical workspaces.

The operator seating range includes models with optional foot rings, armrests, and 360° gas-assisted height adjustment, supporting users across a wide variety of clinical tasks.

Waiting room chairs are available with either a high-polished chrome or black metal frame. Black frame models can be specified with either a plastic PU seat and back or with vinyl upholstery.

All seating options are available with or without arms, and selected models such as the Chrome Chair with Phlebotomy Arm (WCS1A) are designed for specialist clinical applications.

Upholstered and PU surfaces are fully compatible with NHS-approved cleaning agents, including Chlor-Clean, Haz-Tab, Milton, Tristel, Clinell wipes, and alcohol-based disinfectants, ensuring compliance with infection control protocols. 14 standard upholstery colours apply. (Page **)
