

Soft Seating

URB001/A001/A002

The Medi-Plinth Urban Seating range delivers contemporary, modular seating solutions specifically designed to perform in high-traffic healthcare environments such as waiting rooms, reception areas, and communal spaces.

Available as side chairs, armchairs, and two-seater sofas, each unit is constructed using high-density, high-resilience foam to provide consistent support, durability, and long-term comfort for a wide variety of users. Every model is finished with stylish lacquered legs, adding a refined design detail that complements contemporary interior schemes. The range is manufactured in the UK and carries CE Mark certification, offering reassurance of quality, safety, and compliance with relevant healthcare standards.

Robust, adaptable, and visually engaging, the Urban Seating collection allows facilities to create cohesive, flexible layouts that enhance patient comfort.
